EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

claim 25, line 5, "conncted" was changed to --connected--.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or suggest the method of laying an underwater pipeline comprising securing bend restriction means to said length of pipeline said bend restriction means comprising a plurality of bend restrictor segments, each bend restrictor segment being connected to an adjacent bend restrictor segment by a flexible elongate member so that the length of pipeline is prevented from bending by more than a predetermined maximum amount as specifically recited.

The problem to be solved by the present invention is seen as: providing a method for laying an underwater pipeline using buoyant means wherein a protection against buckling or strong bending of the pipeline is guaranteed. The laying speed can thereby be increased.

Even if the floatation means, including clamps and cables of a certain length, of the prior art can be seen as providing some sort of a limitation of the bending of the pipeline, none of the available prior art document discloses a method additionally using bend

restriction means comprising a plurality of bend restrictor segments, connected together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
